
Pupils from the Primary School 'Lyčkovo náměstí' Visited the Department of Biology and Environmental Studies

On Tuesday, February 2, 2016, pupils from the primary school 'Lyčkovo náměstí' visited the Department of Biology and Environmental Studies where they were welcomed by a life-saving/rescue and canis therapeutic dog named Orfy. The dog performed his abilities under the leadership of PhDr. Kateřina Jančaříková, Ph.D. After that the pupils researched small invertebrates in a microscope and were shown other live and preserved animals.
