**Example of cost callcualtion for personnel costs:**

| people in project  | workload                | type of contact                           | maximal tarif salary (**brutto) per month at PedF CUNI                               | personnel costs per year                 |
|--|-------------------------|---|--|--|
| assistant professor with finished PhD from my department | 0,4 - 64hours per month | VP3 (Czech contract DPČ**)                | 32000CZK for 1,0 (you have to deduct according to workload) = $32000/10*4=12800$ CZK | 153 600CZK                               |
| PhD student  | 0,2 - 32hours per month | VP1 (Scholarship - no levies/deductables) | 26600CZK for 1,0 = $26600/10*2=5320$ CZK   | 63 840CZK                                |
|  |                         |   |  | <b>TOTAL COSTS PER YEAR = 217440 CZK</b> |

**NOTE:**

**\*PM is the estimated human effort by work package in project can be calculated as follows: 1 person month = annual productive hours (option 1, option 2 or option 3 in GA) / 143,3**

**\*\* for net salary calculation in the Czech Republic you need to deduct the following from the brutto tarif:**

|   |   |   |
|---|---|---|
| <b>a) salary / remuneration full-time work contracts</b> , statutory levies are 35.52%<br>(This rate consists of: health insurance 9%, social insurance 24.8%, social fund 1.3% and accident insurance 0.42%) | <b>b) DPČ</b> , statutory levies amount to 34.22%<br>(does not go to the social fund, everything else remains the same) | <b>c) DPP</b> , for agreements on the performance of work up to 10,000 CZK per month within the CUNI, no levies are paid. If it exceeds this amount, the same levies apply as for the DPČ |
|---|---|---|

**Example: the remuneration is CZK 10,000, it is necessary to calculate the amount of CZK 3,552 in the column "premiums - statutory contributions".**
